OBJECTIVE

To obtain an entry-level position in the IT field where I can utilize my programming knowledge, problem-solving skills, and enthusiasm for learning to contribute to organizational success.

PROJECTS

Enhancement of Low-Light Image Using Deep Learning

- Worked on improving image quality in low-light conditions using deep learning techniques.
- Analyzed models such as GAN, Retinex-Net, Deep Retinex Decomposition, and Multi-Scale Residual Network.
- Compared different approaches and achieved better accuracy using GAN-based models.

INTERNSHIP

Python Intern – INTERPE

Jun–Jul 2024

- Completed a 4-week online internship in Python programming.
- Learned basics of coding, problem-solving, and programming concepts.

TECHNICAL SKILLS

Programming Languages: Java and JavaScript

Core Concepts: OOP Concepts, Collections Framework, JDBC, Exception Handling, Data Structures & Algorithms

Web Technologies: HTML5, CSS3, React.js

Database: Oracle DB

Tools & Platforms: Eclipse, Git, GitHub, VS Code

EDUCATION

- B.Tech in Computer Science – Saveetha School of Engineering, Chennai (2021–2025)
CGPA: 8.563
- Intermediate (MPC) – Narayana Junior College, Nellore (2019–2021)
Percentage: 93.33%
- SSC – TKR Jeevana Jyothi High School (2019)
CGPA: 10.0

CERTIFICATIONS

- Introduction to AWS – Simply Learn
- HTML Formatting – Mind Luster
- Java Programming – Great Learning
- Multicloud Network Associate – Aviatrix

LANGUAGES

English, Telugu, Hindi

HOBBIES

Listening to Music, Watching Movies, Reading Books, Travelling
